Art Unit: 1774

Lack Of Unity Election

This election requirement is made in accordance with 37 CFR 1.499.

Group I: Claims 1-6, directed to a product.

If group I is elected applicant is required, under PCT rule 13, to elect a single disclosed species from claim 3.

Group II: Claim 7-15, directed to a process.

The special technical feature (STF) of the product of group I is a microcellular fiber having a density, rate of volume expansion, and micro cell diameter. The forgoing STF is not present in group II. There can be no Unity of the invention when the single inventive concept (STF) is not in group II. Hence the process of group II is not specially adapted for making the product of group I. Thus, Lack of Unity is held by the Examiner under PCT rule 13 and 37 CFR 1.475.

A telephone call was made to James Eller on 1/25/06 however there was no response.
